# **Activities pertaining Co-location Surveys Jan-Apr '08**

**Dirk Behrend**

GGOS WG N&C, Vienna, Austria

April 16, 2008

---

## Meeting at NGS in Silver Spring on Feb 8, 2008

- Participants from NGS and NASA
  - technical presentation by Jim Long (NASA/HTSI) describing the current survey procedures followed at NASA
  - NGS currently not active in co-location surveys, but may resume activity
- Testbed GGAO
  - crew from NGS to do full survey at GGAO with support from Jim Long
  - reconnaissance site visit done in March
  - actual survey planned for early/middle May (when Jim Long is back from travel in April)

---

## **FIG/IAG Joint Symposium “Measuring the Changes”**

- Lisbon, Portugal; May 12-15, 2008
- 13th FIG Symposium on Deformation Measurements and Analysis
- 4th IAG Symposium on Geodesy for Geotechnical and Structural Engineering
- Session on co-location surveys
  - description of standard procedures (introduction by C. Rizos, presentations by P. Sarti's and G. Johnston's groups)
  - feedback from surveyor's side on further options
